JOCHELLE MAE MABASA

Full Stack Developer

Davao City, Philippines | +639-765-17-7673 | jochellemae16@gmail.com | jmaetogonon.github.io | linkedin.com/in/jochelle-mae-mabasa

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web and mobile applications using Blazor, .NET Core, .NET MAUI, and PHP. Works across the stack, from RESTful APIs and SQL Server databases to responsive user interfaces. Experienced in upgrading existing applications, integrating systems through APIs, and presenting solutions to business stakeholders.

WORK EXPERIENCE

Full Stack Developer

Sept 2023 – Present

Sonic Sales & Distribution Inc.

- Designed and developed a Human Resources Information System (HRIS) web application from scratch using .NET 8 and Blazor, enabling centralized employee data management and streamlining HR operations.
- Built a centralized Master Data Management System (.NET 8, Blazor) that serves as a single source of truth and exposes RESTful APIs, so multiple internal applications can share consistent, accurate data.
- Designed and developed a Request Monitoring web application from scratch using .NET 10, Blazor, and SignalR, following Clean Architecture and the CQRS pattern, to centralize, track, and manage business requests and improve workflow transparency.
- Developed and deployed three mobile applications for different business areas, using .NET MAUI for AGRO and SetTra: AGRO tracks poultry inventory in real time (egg and chicken movement); SetTra records daily invoice transactions for logistics personnel; Pick and Pack supports accuracy in order picking and packing for delivery.
- Upgraded applications from .NET 6 to .NET 8, improving performance and compatibility.
- Implemented RESTful APIs and managed data using EF Core and SQL Server; tested APIs with Postman and Swagger to ensure reliability across applications.
- Presented applications to business stakeholders, covering functionality, workflows, and alignment with business requirements. All developed applications are deployed and actively used across the organization to support daily operations.

Web Developer Intern

Aug 2022 – Dec 2022

Sustainable Marketing Solutions, Inc.

- Developed and maintained company web applications using PHP, CodeIgniter 4, HTML, CSS, and Bootstrap, including responsive UI layouts and improvements to existing system functionality.
- Created UI prototypes in Figma to support development and stakeholder review.
- Installed, configured, and maintained software and network hardware; resolved hardware, software, and application issues.

Technical Support Intern

Aug 2022 – Dec 2022

University of Mindanao – ICT Office

- Provided technical support for hardware, software, and network systems: installed and configured computer systems and applications, and diagnosed and resolved technical issues.

PERSONAL PROJECT

- Gasta (expense tracker): personal Progressive Web App built with Blazor. Stores data on-device with IndexedDB so it works offline; published as a static site on GitHub (gastaapp.github.io).

EDUCATION

Bachelor of Science in Information Technology

2018 – 2023

University of Mindanao

- Dean's Lister (Certificate of Progression), Mar 2019 and Mar 2020.
- Capstone project (Jan 2023): built a VB.NET Windows application that monitors user activity, idle time, background apps, and screenshots, and stores the data for employee tracking and analytics. Placed 2nd in the Research Poster and Oral Contest (Jun 2023).

SKILLS

Languages: C#, VB.NET, PHP, HTML5, CSS, JavaScript

Frameworks & Libraries: .NET 8, Blazor, .NET MAUI, CodeIgniter 4, Bootstrap 5

Databases: SQL Server, Entity Framework Core, IndexedDB

Tools: Visual Studio, Git, Figma, Postman, Swagger; AI assistants (Claude, ChatGPT) for development support

Concepts & Practices: RESTful APIs, Clean Architecture, CQRS, Progressive Web Apps (PWA), Responsive Design, UI/UX

CERTIFICATIONS & AWARDS

- IT Specialist – Databases (Dec 2022); National Certificate II in Computer System Servicing (Mar 2023)
- Excellence in Computer Programming 2 (Nov 2018, Dec 2018, Jan 2019); 2nd Place, Research Poster and Oral Contest (Jun 2023)
